Youth Unemployment in South-western Ontario

The unemployment rate for youth 15 to 24 years of age is the unemployed in that group, expressed as a percentage of the labour force in that group. On this map, the dark orange represents a higher unemployment rate .

Youth and Senior Population Projections

Niagara 2005-2031

The local youth population is projected to stagnate. The total population will grow with the largest gains in the 65+ cohort.

Labour Force Activity by Education

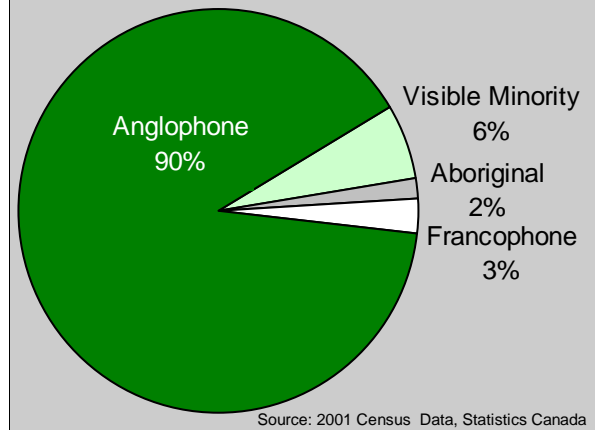

Youth age 15-24, Niagara, 2001

Trades graduates have the lowest unemployment rate among area youth while college graduates have the highest employment rate.

Youth Population Groups

Niagara, 2001

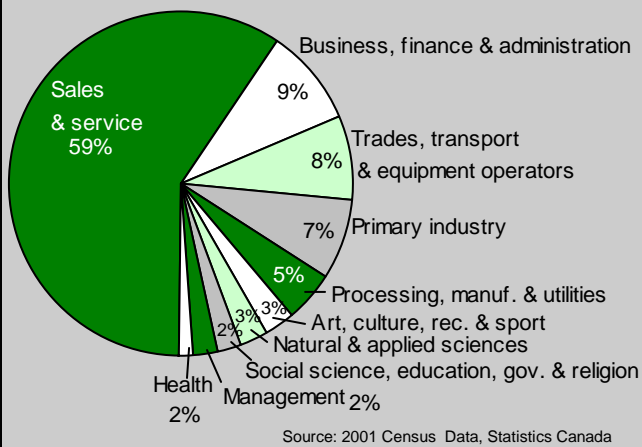

Although area youth are more diverse than the regions total population, both are less diverse than the provincial average.

Like the rest of the province, a majority of employed area youth work in sales and service occupations.

Youth Employment by Occupation Group

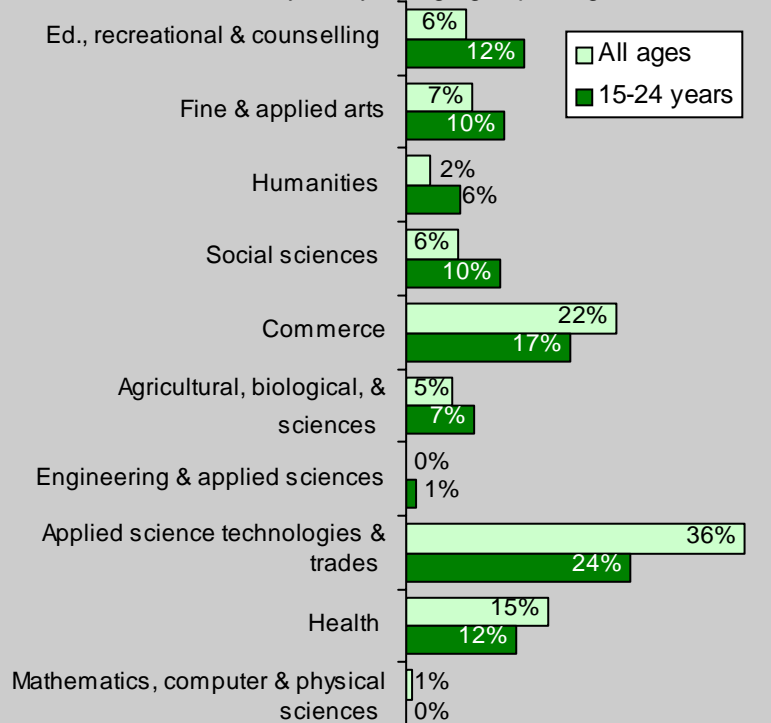

Niagara, 2001

Like the total population, commerce and applied science and trades are the most studied fields amongst area youth. However, this age group's studies are more diversified than previous generations.

Fields of study

Post-secondary study by age group, Niagara, 2001
