Craig Warden

Craig Warden was born and raised in St Catharines, and attended local high school and University here.

He spent considerable time travelling throughout North America in various roles in the Logistics and Transportation field. Previous 7 years as a Senior Manager in the Waste Industry with Waste Management, and BFI Canada. Prior to that, 16 years in various locations throughout the United States as a Senior Manager in Logistics departments for a major retail chain.

Craig is a Past Member of various Provincial and State committees with relationships designed to enhance Safety, Recruiting, Government issues and local charitable activities

His current role is the General Manager for Canada for Modern Corporation.

Modern Corporation has worked to enhance the quality of the environment and well being of our communities by providing recycling, commercial and residential waste removal, landfill, industrial cleaning, sanitation and environmental services to commercial, industrial and municipal customers. Modern Corporation is committed to the safe handling, effective reclamation and environmentally friendly disposal of a wide variety of waste products, and uses state-of-the-art technology to achieve its goals.

Craig has been married for 21 years and has one child.
